Jodie Comer turns out to be the most beautiful woman in the world! At least this conclusion was reached by the famous surgeon Dr. Julian De Silva after using the well-known Greek Golden Ratio of Beauty technique, also known as "Phi". If we were to refer to scientific measurements, the second in the list as the most beautiful in the world was ranked Zendaya, while Bella Hadid and Beyonce took third and fourth place.

The 29-year-old Killing Eve actress was found to meet about 94.52% of the Golden Ratio technique. Her eyes, eyebrows, nose, lips, chin, facial features and shape are very close to the ancient Greek notion of proportions and beauty.

Commenting on the results, Dr De Silva, who directs the Center for Advanced Facial Cosmetic and Plastic Surgery in London, said: “Jodie Comer was the clear winner when all the facial elements were measured and physical perfection was the result.

Meanwhile, "Dune" star Zendaya scored up to 94%, taking second place for the perfect proportion of facial features.
